STEM Free-Standing Scarecrow Building Challenge

Materials needed:

- 25 Wikki Stix (assorted colors)
- 5 Craft Sticks
- Scissors

Directions:
The challenge is to plan and build a free-standing scarecrow (must stand without human support) with only the supplies above. You do not have to use all supplies, but no more will be given. Time limit is 25 minutes. If working in a team, please consider each team member’s suggestions before deciding on the final design for your scarecrow. Good luck!
